

PRODUCT TRIPLE 7 TRUCK WASH

Description

TRIPLE 7 Truck Wash is a multi-purpose truck wash was developed to meet current market expectations focusing on removing oil, grease, coal and road grime from plant and equipment whilst having the grunt to clean workshop floors and associated infrastructure. **TRIPLE 7 Truck Wash** is phosphate and caustic free and can easily be dispensed via a HV foaming unit or air driven dispensing system. **TRIPLE 7 Truck Wash** is designed to perform hard water conditions so will be suitable for premixing with most mine site raw water supplies.

BENEFITS:

- Fast, convenient removal of all residues from hard surfaces , especially coal, hydrocarbons and iron ore dust
- Rapid emulsion breaker
- Effective and safe on all surfaces
- Environmentally sound
- Clings to vertical surfaces
- Non-flammable
- Low odour
- Non hazardous
- Not classified as Dangerous Goods

DIRECTIONS FOR USE:

Light To Medium Soils

1 part **TRIPLE 7 Truck Wash** mixed with 4 parts water. The cleaning solution can be applied by a number of methods, e.g. brush, swab or spray the surface, leave for a short period and rinse the surface with water when still wet or wipe down with a clean damp cloth.

Heavy Soils

1 part **TRIPLE 7 Truck Wash** mixed with 2 parts water.

For heavier soils it is recommended that **TRIPLE 7 Truck Wash** solution be left on the surface for 3-10 minutes to ensure complete penetration of the soils.

HANDLING PRECAUTIONS:

Avoid prolonged skin contact

If splashed in eyes, rinse immediately with copious amounts of water.
